City of Branson Announces Temporary Entrance Change at City Hall Beginning December 16

(BRANSON, MO, December 12, 2025) The City of Branson is moving forward with improvements to City Hall that will help create a more accessible and secure environment for everyone. Construction on a new entrance area in the second-floor lobby will begin next week as part of these improvements.

To accommodate this project, the main public entrance to City Hall will temporarily relocate to the first-floor entrance off Second Street beginning Tuesday, December 16. The second-floor entrance will be closed during construction, and all guests should enter and exit through the first floor. Clear signage will be placed throughout the site to help direct visitors.

During this time, water bill payments will be handled on the first floor, where the Finance Department will temporarily operate from the Records Office.

A parking map is provided to help residents navigate their visit. The map highlights:

- 15-minute parking, marked in orange, available for quick stops.
- Guest parking, marked in red, located directly across from the Maddux Street entrance.

The City of Branson appreciates the community's understanding as we make these upgrades that support both improved building security and a better customer experience at City Hall.
